

NEW ERA SENIOR SECONDARY SCHOOL

ECO-FRIENDLY TRANSPORTATION POLICY

A. OBJECTIVE

To promote sustainable, safe, and environment-friendly transportation practices among students, staff, and stakeholders, thereby reducing carbon footprint and traffic congestion around the school.

B. POLICY STATEMENT

The school is committed to encouraging the use of eco-friendly modes of transport and minimizing the environmental impact of daily commuting.

C. KEY STRATEGIES IMPLEMENTED

1. Promotion of School Transport System

- Encouraging students to use **school buses/vans** to reduce the number of private vehicles.
- Proper route planning for **fuel efficiency and reduced emissions**.

2. Carpooling Initiative

- Parents are encouraged to adopt **carpooling practices**.
- Awareness drives conducted to reduce single-occupancy vehicles.

3. Walking & Cycling Encouragement

- Students residing nearby are motivated to **walk or use bicycles**.
- Provision for **safe bicycle parking** within the campus.

4. Vehicle Emission Compliance

- All school transport vehicles must have valid **PUC (Pollution Under Control) certificates**.
- Periodic checks to ensure adherence to emission norms.

5. No-Idling Zone

- Declaration of **“No Idling Zone”** near the school gate to reduce air pollution.
- Drivers instructed to switch off engines while waiting.

6. Awareness & Sensitization

- Conduct of campaigns, assemblies, and activities on **clean mobility and environmental protection**.
- Celebration of events like **World Environment Day**.
