Chief Minister, Gujarat State

MESSAGE

Educating a child is like shaping and moulding the future of the nation. The necessary elements of life like discipline, spirituality and nationalism are best instilled at early childhood and during their growing up period. It is a dream of students to receive best of their lives after successfully completion of their studies. **Honourable Prime Minister Shree Narendrabhai Modi** is always advocating for providing world-class education along with best skills to the students.

I am much pleased to learn that the E-school Magazine “**Kaleidoscope**” is being published on quarterly basis by the **New Era Senior Secondary School**. I am delighted to learn that this school has been adjudged as the **Top School** of the Year **2023** by the National Educational Excellence Awards and been declared the best school for creativity, academics, parental engagement and career counseling. I am sure; the creativity outlined by the children will become source of knowledge and inspiration for other students. I hereby, extend my heartiest best wishes to the editorial team of **New Era Senior Secondary School** for the success of its **E-Magazine-Kaleidoscope** and for a bright future to the teaching staff, students, parents and all the stakeholders.

MESSAGE FROM PRESIDENT

Dr.Devanshu J Patel

DR. DEVANSHU PATEL, PRESIDENT

“LIFE ISN’T ABOUT FINDING YOURSELF, IT IS ALL ABOUT CREATING YOURSELF”

The New Era school magazine “Kaleidoscope” is a document which displays the growth and valor of our school. This also gives an opportunity for students to showcase their creative literary talents. This year our board results have been astounding, but that is not all, as we not only make our students strong in academics but also encourage them to participate in various activities like sports, visual & performing arts, skill clubs etc. so as to ensure their holistic development.

I am a firm believer of the ideology that the true lesson is the struggle that takes place between dream and reality and that struggle is called life!". I stand by every student in their struggle and efforts to carve their life into a dream model. Also remember that the result is not so important, but the process is, which is learning at every step that prepares one for life. I congratulate each student of New Era and wish them good luck for the brightest possible future. I am thankful to all the teaching & non- teaching staff and also the parents for their unflinching support throughout the year. Jai Hind!

MESSAGE FROM MANAGING TRUSTEE

Dr. Geetika Patel

DR. GEETIKA PATEL, TRUSTEE

"HOWEVER DIFFICULT LIFE MAY SEEM, THERE IS ALWAYS SOMETHING YOU CAN DO AND SUCCEED AT."

I am immensely proud and happy for the outstanding results achieved by the New Eraites in Grade X & XII Board Exams and also displaying their mettle in the competitive exams. I know that much hard work has gone behind, by every teacher, parent, and student of New Era, I wish that you all achieve such milestones and make each one of us proud in the future as well.

It's no secret that students face a lot of challenges these days. So it becomes imperative to help them keep their dreams alive with encouraging words and celebrating their individuality. With the right attitude, students and teachers can constructively work together to create a positive learning environment. Kaleidoscope- the New Era school magazine is one such effort to foster a positive and creative mindset in students. It has given wings to students to express their emotions in different forms.

I also feel that while the academic side is important, students also need reinforcement in other areas such as social and emotional health. Celebrating the hard-earned successes of those involved in hobbies or extra-curricular activities can help keep a student motivated even outside of the classroom. We at New Era can very proudly say that we keep these integrities in mind while shaping these young minds and preparing them for future. My best wishes to all the readers.

MESSAGE FROM MANAGING TRUSTEE

**“THE BEAUTIFUL THING ABOUT LEARNING IS THAT
NOBODY CAN TAKE IT AWAY FROM YOU.”**

Knowledge is a power that stays with you as long as you keep using it. Use this power wisely to grow and become the person you want to be. Stupendous results in the board exams have proved the wisdom & talent of our students, the efficacy of our teachers and of course the parents, who have played a great role in achieving this glory.

We at New Era ensure that we provide the students, the finest education possible. Minute-by-minute observation of students, along with an understanding of how children learn, has allowed teachers to make valid decisions and judgements. So it is no surprise that our students have been able to carve a niche for themselves wherever they go.

I extend my heartiest congratulations to the New Era family. Kudos to the editorial team and to all those who have contributed to make this magazine a truly good read and a visual treat for the eyes.

MESSAGE FROM MANAGING TRUSTEE

Dr. Komal Patel

DR. KOMAL PATEL, TRUSTEE

**“ YOU ARE BRAVER THAN YOU BELIEVE,
STRONGER THAN YOU SEEM AND SMARTER THAN
YOU THINK.”**

My message to all New Eraites is to believe in yourself, be strong, never give up no matter what the circumstances are. You are a champion and will overcome all obstacles.

Your academic results have showed how hard you have fought for success, and I'm thrilled to see you reach your reward. I know there will be many more in your future. Here's hoping that your future brings you endless opportunities to learn, grow, and achieve your goals. May you find the strength and resilience you need to overcome any challenges that come your way in the future. The New Era school magazine “Kaleidoscope” is indeed an amalgamation of the ideas, emotions and spirit of every New Eraite.

It is awe inspiring to see the kind of progress that New Eraites are making in different areas of education. The school approach is such that students develop creative and critical thinking skills through various skill based activities.

I would like to laud the teachers and students for putting up a well curated, well organized collection of articles, snapshots and testimonies. I would also like to thank all the stake holders for their kind support and cooperation in all our endeavours.

MESSAGE FROM DIRECTOR

Dear Readers,

I wanted to narrate a story to you, which perhaps all of you know. It is about Arjuna. You all know how he passed the archery test. When his teacher (guru, which means the teacher who removes darkness of ignorance from the student's mind) asked all students, one by one, what each one was seeing, Arjuna said he was seeing the eye of the bird, kept hanging from a tree branch.

It was his sheer concentration that made him see only the eye, when others noticed the bird or the tree branch! When we lose concentration, we tend to make mistakes which could be easily avoided.

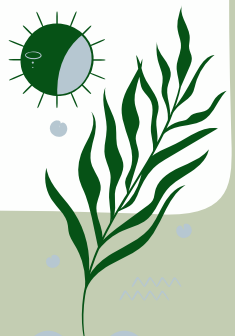

He succeeded in shooting the eye which is what the teacher had expected.

This shows how focused he was. Often, we lose focus in any task that we have on hand and thus do not succeed in it.

Dear readers, we know why Mahabharata is revered by all today. I hope this year turns to be a year of great concentration, hard determination and precise focus.

A school magazine is looked forward to by students as they are the budding authors and poets, by parents for they feel really proud to see their children's names in print, by all who do not fall in any of the above category to see what the school is doing. The staff wants to present it with a pride to showcase their protégés' talent and how they have been nurturing it and I am in this category!!

I am sure you definitely are somewhere in the categories I have mentioned! Now, I sign off so that you have uninterrupted reading!

MESSAGE FROM THE PRINCIPAL

MRS LEENA NAIR

We at New Era, realize our responsibility of nurturing children's curiosity, igniting their minds to pierce the skies, helping them to discover the world of books and richness of experience, ponder on various mysteries of life along with mastering the magic of technology and the limitless span of cyber space, which is the need of the hour.

Our students have shined both in the class 10 & 12 board as well as in competitive exams and the credit goes to the joint efforts by the teachers, parents and students along with the rock pillar support of the school management who have been consistently monitoring the progress of the students and doing all that to ensure that they get nothing but the best.

The students at New Era are offered many opportunities to explore their interests and investigate new ideas through various skill clubs along with the indoor and outdoor extra-curricular activities, this also enables them to grow at their own pace in a safe, nurturing environment

"Kaleidoscope" is a reflection of New Era teachers' and students' creativity and it goes without saying that the magazine has turned out to be an absolute delight for all the readers. I thank each one of them, who have put in their efforts to make this magazine a master piece.

MY FIRST FAMILY TRIP

My first family trip was a road trip to mystical Mahabaleshwar. It is a quaint hill station known for its scenic beauty and strawberries. It was a twelve-hour long road trip. Our journey began at 5:00 am, it was the most thrilling and exciting experience. We witnessed some rare and breathtaking views. The weather that day was pleasant, fresh air and tranquility of the countryside made us feel relaxed and energetic. After driving all day long, we finally reached Mahabaleshwar in the evening at 5:00 pm. We checked in the hotel and relaxed. Next day morning we hit the Mapro garden where we had lots of strawberries and captured those places and moments in our camera. Post lunch we had delicious Mahabaleshwar special dessert strawberry delight which is a must have. Next, we experienced the process of making strawberry-based products from the strawberry. During our five day stay we visited various tourist places like Pratapgarh fort, Venna Lake, Elphinstone echo point, wax museum, and the local shopping market. My experience of Mahabaleshwar was truly mesmerizing and memorable.

MY EXCITING SUMMER VACATION

Summer vacation is my favorite time of the year, as it gives me a chance to relax and explore new things. This summer, I visited my native village which is quite a distance from the city. It is a five hours journey by train. My grandparents stay there and my grandfather takes care of the fields and produce a variety of crops. My cousins visited our grandparents too during their summer vacation. Our grandmother prepared delicious and mouth-watering dishes for us and we relished every bite of the food. I spent most of the time, visiting fields with my grandmother, grandfather and learning from him about crops and the seasons they are produced in. I also played a lot with my village friends. It was routine every night to listen a story from my grandmother and sink to sleep. I had a wonderful time spending some priceless moments with my grandparents. I feel blessed to have such a caring and loving family, with whom I enjoyed my summer vacation thoroughly.

Family Trip – Hyderabad

We went to Hyderabad for a family trip during Diwali vacation, last year. Hyderabad is the capital of Telangana. We had flown from Vadodara to Hyderabad by IndiGo flight. I saw clouds during the flight. The plane was so fast that we reached Hyderabad within 1.5 hours. It was an amazing experience.

We started for Statue of Equality just after the plane had landed. We saw the statue of Ramanujacharya Swami. It is the second tallest sitting statue in the world. There, we enjoyed a musical fountain show. After that, we checked in Tara Hotel situated in Ramoji Film City. We enjoyed the carnival at night. On the second Day, we had a tour of Ramoji Film City. We were explained about filmmaking and we attended Wild West Live Action Show too.

The next day, we visited the historical places of Hyderabad such as Charminar, Golkonda Fort, Salar Jung Museum and Chowmahalla Palace. We ate the famous Hyderabadi Biryani at the restaurant “Bawarachi”. My mom was so happy after buying pearls jewelleryes.

At the last day, we went to Mallikarjuna Temple, Srisailem. It is one of the twelve Jyotirlingas of Shiva. There, we saw Srisailem dam.

Finally, we hovered back to Vadodara from Hyderabad with a lot of good memories and gifts. I enjoyed this trip with my family and expecting more & more...

My joy of the last family trip

During the recent summer holiday, I travelled to Jammu and Kashmir with my parents and family friends. Let me just say that it is one of the most beautiful places I have ever seen on the Earth. I was lucky enough to capture the first click of the magnificent snow-clad mountains on my flight to Srinagar. There, I visited many famous places like Srinagar, Sonmarg, Gulmarg and Pahalgam, at Srinagar, we lived in a houseboat which is situated on famous Dal Lake. It was unique experience for us also we did Shikara ride on breezy evening. I also visited one of the Asia's

largest Tulip garden where I saw different varieties of tulips in different colors which was so beautiful. In Sonmarg, I had fun with sledge ride. Gulmarg is the best hill station, we did Gandola [Ropeway] ride over there and went on top of the mountain where we experienced snow fall which was so amazing. My friend and I made a snowman also we made snow balls and threw at each other and had lots of fun. In Pahalgam, I did horse riding which was so adventurous and bit scary experience for me. I visited Vaishnodevi Temple which is one of the famous pilgrimage of India. I felt so blessed. Kashmir is a feeling that is indescribable in pictures. It is a memory of a lifetime of having visited the ‘Switzerland of India’. It is indeed a HEAVEN ON EARTH!

Bengaluru Diaries

My last family trip was to Bengaluru by car. The national highway, keeping track of the cities and villages we passed by, looking at the beautiful nature through the window – everything brought great joy to me. I also enjoyed sleeping on my brother's lap during the journey and playing atlas game. Nothing can beat the joy of traveling long distance with my family. After reaching Bengaluru, the joys got multiplied 100 times because of the lovely time with grandparents and cousins. Family functions and trekking to Savandurga hill was very thrilling and filled my heart with great joy and enthusiasm.

"Goa - a land of sun, sand, and sea."

My last joyful family trip was to a very pleasant place, Goa. Goa is an amazing place to visit in winter as the days were not very hot and we were having the proper amount of sunlight. We visited attractive beaches. The beaches were surrounded by tall palm and coconut trees which gave us relaxing shade. Spending pleasant moments in the crystal clear water was our delight. Those beaches were crowded but they had enough space to let us enjoy ourselves. We captured those priceless moments in our memories. Looking at the sparkly blue water which was shining because of the sun happily smiling at the sea, refreshed our minds. We visited Goa with a lot of expectations, it was even better. I think every family should go on such family trips, especially after an epidemic like covid. The main reason for this family trip was to spend quality time together.

My Old Abode

I close my eyes
While sitting under a tree
All the darkness of my life
Was the only thing I could see
Those flashing memories
Those naughty times
Could never be revived again
As the time never rhymes
I feel those walls of my old abode are
calling me
To make me live my life accordingly
But my destiny denies me
As my new walls are just as deep as the
sea
But those valuable times we cherished
together
Were hard for me to forget forever
As the choices I had were none less than
The things I loved maybe whatever
At last with a sigh
I hoped for the best side
To wish for something which was high
None other than a fair guide!

DEEP SLEEP

As this sweet silvery mist engulfs me,
My head starts spinning and I get dizzy.
My eyes droop and my breathing slows,
As this cool breeze of sleep blows.
A mellifluous buzzing fills my ears,
And I relax as it shuns out the noise of my fears.
I lose my way in the unforgiving fog,
My mind starts oscillating like a rocking cog.
I am gripped tightly by unconsciousness,
As the command is taken over by my sub-consciousness.
My ship is thrown down a cliff,
And the scene before me takes a shift.
I find myself on another planet,
With tigers stalking my room and birds in my cabinet;
With skeletons playing football,
And Humpty- Dumpty having a great fall!
As I roam in the gnome-filled lawn,
I hear a ringing bell marking dawn.
My vision gets blurry and obscure,
I come back to my senses and say "bonjour!"
I am left marvelling at my adventure
And look forward to such ones in the future.

TODAY A READER, TOMORROW A LEADER

Instilling a love for reading at an early age helps a child to enhance their vocabulary and to build independence and self-confidence. Today, the ability to read is highly valued in the society. Reading is very important for social and economic development in this era. Research has shown that readers who love fictional books tend to develop a better theory of mind which helps them understand people better. Reading can also reduce mental stress; 30 minutes of reading can lower your blood pressure, heart rate, and psychological distress by up to 68% ! Reading improves the critical thinking and concentration level of the reader. It keeps the mind active and flexible. Overall, reading can give you a better sense of being connected to the world; it helps you feel less alone and a more integral part of the world.

From the eyes of an Alien!

Many have shown the courage, the gallantry,
Many have sought to excavate some martian,
Unknown to the world, foreign to a country,
Most have asked, "Is there anything as an alien?"
Some have been much impertinent indeed,
So nice of my friends to humour me as an alien!
But it's much arduous to discern such a creed,
Afterall, none of us are as great as Napoleon!
Legends talk of such a peculiar individual.
No, it wasn't Croatian, nor was it Australian.
Who came across our planet to catch just a visual?
It was a blue-green alien!
A pale shade of green, as in a raw apple,
From the tip of it's antennas to it's funny webbed feet,
Recording every domain from the universe's chapel,
Reported the alien, from his grand hot-seat!
'Twas a large, green field shaped area, he observed,
As huge as a crater and filled with men,
Worshippers they were with places reserved,
In thousands they roared, time and again!
The feigning shrieks died away, as they stood astounded,
A pair appeared from the boisterous horde,
A trio of spears each, which they grounded
at ends of an oblong of grass, centrally moored.
Emerged again from amongst the noisy beasts,
Eleven more priests, clad in white robes.
Following them, appeared two more high priests,
For in their hands, they were wielding clubs.
Suddenly, a red orb produced from nowhere
Is thrown by a priest brutally at another,
At the one who was weilding club readily here,
Seemingly assumed as the high priest rather.
Halted here the alien's report, weren't they perplexed!
As curious as cats they were, kept wondering in vain,
"Gee," they exclaimed, "what happens next?"
Came the reply, "Commenced the rain!"
All about a game of cricket, from the eyes of a blue-green alien!!!

How can I save the world from pollution, water scarcity and global warming?

Mahatma Gandhi said it correctly:

“The Earth provides enough to satisfy every man’s needs, but not every man’s greed”.

We do not inherit the Earth from our ancestors, we borrow it from our children. World earth day is celebrated on the 22nd of April of every year. This day is celebrated to honour our earth and create awareness of the need to protect it. Nature provides many benefits and services supporting our survival and well-being. However, nature is also under threat from human activities that degrade, fragment, or destroy natural habitats. The Earth is facing many environmental challenges due to human activities that release greenhouse gases, increase Earth’s temperature every year, pollute the air and water, and deplete natural resources resulting in global warming. These problems affect the health and well-being of all living beings on the planet and threaten the stability and sustainability of our ecosystems. Therefore, everyone needs to take action.

We can contribute to this noble cause in many ways.

Do more afforestation.

Use renewable energy sources, such as solar, wind and hydropower.

Use public transportation and carpooling.

Use the concept of reduce, recycle and reuse.

Reduce water consumption by taking shorter showers, fixing leaky faucets, installing low-flow toilets and showerheads, and collecting rainwater for watering plants and protecting soil from soil erosion.

Participate in environmental activities and events that raise awareness.

We can make a positive difference in the world and show our respect and gratitude for Mother Earth. If we all work together, we can save the Earth. We can protect nature by preserving natural areas like wildlife sanctuaries and national parks and planting trees.

“Don't be a fool, save the Earth

It's the only place with life and worth”

To save the world from pollution, water scarcity, and global warming, we must act with courage, compassion and foresight, not with greed, ignorance and short-sightedness.

मेरी व्यथा - धरती माँ

मैं एक नीली गेंद हूँ,
पेड़ - पौधे उगाती हूँ,
सभी को जीवन देती हूँ। स्वरा पंडया, 4B

गोल घूमती जाती हूँ,
अपना कर्तव्य निभाती हूँ,
सभी को जीना सिखाती हूँ।

प्लास्टिक, प्रदूषण से घबराती हूँ,
फिर भी सब कुछ सहती जाती हूँ,
बिना रुके अपना कर्तव्य निभाती हूँ।

बस एक विनती करती हूँ,
सभी जनों को कहती हूँ,
“ पेड़ लगाओ, जीवन बचाओ”,
हरा - भरा मुझको बनाओ।

हमारी प्यारी धरती माँ
धरती हमारी माँ है,
इसको स्वच्छ रखना हमारा कर्तव्य है।

सहती रहती है विपदाएँ,
कैसे इसे हम बचाएँ ?

अब लेना होगा प्रण हमको,
स्वच्छ बनाएँ अब इसको।

चलो अब स्वच्छता का अलख जगाएँ,
दूषित धरती को फिर से हरी - भरी धरती बनाएँ।

भारत 2023 G20 का प्रतिनिधित्व करता है-

G20 को 'The Group Of 20' के रूप में भी जाना जाता है, यह एक अंतरराष्ट्रीय मंच है जिसमें कई देश भाग लेते हैं और पूरी दुनिया में वित्तीय और आर्थिक कार्यावली के बारे में प्रमुख बिंदुओं पर चर्चा करते हैं। इसके अलावा, इस मंच का एक मुख्य उद्देश्य उन सभी अर्थव्यवस्थाओं को एक साथ लाना है जो दुनिया की उन्नत अर्थव्यवस्थाओं के साथ उभर रही हैं। G20 समूह की शुरुआत वर्ष 1999 में हुई थी।

G20 शिखर सम्मेलन हर साल एक बार आयोजित किया जाता है और राष्ट्रपति के नेतृत्व में आयोजित किया जाता है जो सभी भाग लेने वाले देशों के बीच बारी-बारी से होता है। भारत इस साल 1 दिसंबर से इंडोनेशिया से G20 की अध्यक्षता ग्रहण करेगा और 2023 में देश में पहली बार G20 नेताओं का शिखर सम्मेलन आयोजित करेगा। यह सभी की भलाई के लिए वैश्विक समाधान ढूँढकर एक महत्वपूर्ण भूमिका निभाएगा, और ऐसा करने में, 'वसुधैव कुटुम्बकम्' या 'विश्व एक परिवार है' की सच्ची भावना प्रकट होती है।

मेरा व्यक्तिगत रूप से मानना है कि G20 की अध्यक्षता भारत को विश्व आर्थिक व्यवस्था में अपनी भूमिका को मजबूत करने का एक अनूठा अवसर प्रदान करती है। 'वसुधैव कुटुम्बकम्' की विषय के साथ, भारत वैश्विक चुनौतियों का समाधान करने और सतत आर्थिक विकास की सुविधा के लिए एक महत्वाकांक्षी, जन-केंद्रित कार्यावली चला रहा है। G20 की भारत की अध्यक्षता को अपने हितों को आगे बढ़ाने और वैश्विक मंच पर देश की छवि को बढ़ावा देने के लिए एक महत्वपूर्ण मंच के रूप में देखा जाता है।

अन्य जीवन रूपों में भटकने के बाद, एक जीव मानव रूप में लौटते है और मानव जीवन ही भटकने के इस चक्र से मुक्त हो जाता है। यदि मनुष्य जन्म की पूर्ति करना जानता है तो मुक्ति प्राप्त कर सकता है और यदि नहीं करता है तो वह जीवन अनंत भटकन का साधन बन जाता है। वह अन्य सभी जीवों में अपने कर्मों का क्षय करता है, लेकिन केवल मनुष्य रूप में ही वह कर्मों को बांधता भी है और नष्ट भी करता है। यह मानव शरीर बड़ी कठिनाई से प्राप्त किया गया है, इसलिए इसे अपने कार्य को पूरा करने के लिए उपयोग करें। इस मानव शरीर को प्राप्त करने के लिए आत्मा ने अनंत जन्म बिताए हैं। यदि एक जीव एक जन्म आत्मा के लिए खर्च करे तो आपका काम इसी जन्म में हो जाएगा।

मनुष्य रूप में यदि ज्ञानीपुरुष मिलें तो मुक्ति मिल सकती है। देवगणों में भी मानव रूप धारण करने की प्रबल इच्छा होती है। ज्ञानीपुरुष के साथ संबंध स्थापित करने से, शरीर जो अनंत जन्मों से शत्रु था, अब परम मित्र बन जाता है। इस शरीर से ही आपको ज्ञानीपुरुष मिले हैं, इसलिए काम पूरा कर लीजिए।

भारत के पहले ज्योतिर्लिंग – सोमनाथ के दर्शन मेरे साथ
वड़ोदरा से करीब 480 की.मी. का लम्बा सफ़र मैंने

अपने परिवार के साथ रोड द्वारा दिन के समय तय करना उचित समझा।कारण –रास्ते के मनलुभावने नज़ारे,पवन चक्कियों

का अद्भुत अनुभव,नारियल के वृक्षों के बड़े बड़े इलाके , केसर आमों से लदे पेड़ तथा गिरनार की पहाड़ियों का सुरम्य नज़ारा-इन सब का आनंद भी तो लूटना था न! तकरीबन 9 घंटे की सुन्दर ड्राइव के बाद हम अपने

गंतव्य स्थल पहुंचे। इतिहास की पुस्तकों में मैंने पढ़ा था कि क्रूर विदेशी शासक मोहम्मद गजनी ने सत्रह बार दौलत की लालच में इस मंदिर को लूटकर तहस नहस कर दिया था तथा भिन्न भिन्न भारतीय शासकों द्वारा इसका समय समय पर पुनःनिर्माण हुआ।आज़ादी के बाद सरदार वल्लभभाई पटेल ने इस मंदिर के जीर्णोद्धार का संकल्प लिया। अब जब यह आस्था का प्रतीक मेरे सामने था तब हम सब इसकी भव्यता एवं सुन्दरता देखकर चकाचौंध रह गए।अरब सागर के तट पर बना ये मंदिर शिल्पकारी का अद्भुत नमूना है।इतना विशाल प्रांगण ,जिसमें रात के समय लाइट और साउंड शो

की भी व्यवस्था है जो हमें इसके इतिहास की सच्ची

जानकारी देता है।गुजरात सरकार ने पर्यटन को बढ़ावा देने

के उद्देश्य से समुद्र तट पर मंदिर के पीछे एक भ्रमण पथ(वाकवे)बनाया है। साथ में ऊंट और घुड़सवारी का भी आकर्षण है।हालांकि मौजीली लहरों की वजह से पानी में अन्दर जाना वर्जित है।

इन अनुभवों को मन में पिरोकर हम अपने अगले मुकाम के लिए निकल पड़े –सन गीर।

Eminent Alumni

Under the Alumni Talk Series, NESSS's family was proud to host its alumna, Batch 2009, Mr Shobhit Chaudhry, a professional lawyer in Intellectual Property Rights & Technology. He delivered an insightful pep talk to the ninth and tenth graders on 28th April, 2023. His remarkable acumen in dealing with the challenges in the field of Law motivated the young minds to continue with perseverance even in the difficult times. He also acquainted the gathering with different branches of Law as career options. In a nutshell, the session was a fruitful one for the New Eraites.

Better teeth, Better health

Dr. Mira Batra, renowned Periodontist of Vadodara, conducted a dental awareness session for the FS-2(LKG) children.

She emphasized on

- * Properly brushing teeth twice daily.
- * Eating healthy foods to have strong teeth.
- * Avoiding sugary food and drinks to avoid cavities.
- * Going for regular dental check-ups.

Earth Day Celebration

Through multiple activities children learnt the important message of saving to save tress and planet .

Professional Development of teachers

Who dares to teach must never cease to learn...

Ms Dipali Bhatt, Ms Kavita Desai, Ms Prachiti Bhamerkar, Ms Janhavi Tewari and Ms Deepa Garg attended an interactive workshop on "Theme-based learning - An integration of learning areas, content, concepts, and skills"

New session 2023-24

The vibrance of laughter and giggles rejuvenated the entire premises of New Era as we reopened for the academic year 2023-24. Children were thrilled as we welcomed them with parachute play, games, action songs, bubble dance, soft toys, masks, music, ball pool and nature walk.

Exemplary performance in Olympiads by New Era Pre-schoolers

Our pre-schoolers performed excellently well at the little stars English, Math, and EVS Olympiad 2022-23.

Heni Bhavsar of LKG class and Zane Macwan, Mahi Patel, Nivaan Patel of UKG class obtained 100/100 marks in all the three subjects English, Mathematics and Environment Science. 14 students scored 100/100 in two subjects.

Congratulations to all the students for the incredible success.

Orientation meetings for Parents

An orientation programme was organised for parents of students moving from Foundation Stage 3 i.e UKG to Foundation Stage 4 i.e Class 1. The orientation was aimed at briefing the parents about the new National Curriculum Framework for foundational stage and the school policy with regards to the curriculum, pedagogical processes, assessment pattern and other modalities leading to students' holistic development.

New Era Preschool Graduation 2022-23

"We know that one day will come, when we will eventually part. But every child that comes through New Era Preschool, will forever, yes forever be in our heart".

Congratulations to all our superstars!

They have gained a strong foundation and are brimming with confidence, knowledge and are ready to go to the next level of their educational journey.

Water play day at New Era Preschool

The kids enjoyed activities like pouring, balancing, squeezing, sieving, dabbling their feet in water pool trying to hold the ball with feet. They revised the concepts of float and sink, measurement, empty and full, absorption, mixing of colours, by exploring their senses!!

Holi Celebration

There was laughter, joy and merry making in the air as Holi was celebrated by New Era Preschool and New Eraites of Grade1-2, with great zeal and enthusiasm.

Community Outreach program

New Era School regularly associates with NGOs, charities, and causes, to provide our students platform to make a real difference.

Children of Chanakya prathmic Shala visited New Era Preschool .The dynamic teachers and children kept the visitors glued with an inspirational prayer, funny joker act, group dance, rhymes, riddles, team games on ground, and a sumptuous meal.

Our students learnt the importance of developing the spirit of giving back to society and reaching out to those less privileged as they gave away clothes, utensils, books, blankets and toys, apart from spending qualitative time with these children.

Annual Concert

It was a grand celebration at New Era Preschool as we showcased our most awaited event of the year - Annual Concert " MITTI " with grandeur and splendour! Mitti was a tribute to the hard work and toil of the Indian farmers and celebration of the harvest festival throughout the country.

Republic Day

Republic Day, a day of national rejoice was celebrated at New Era Preschool to instill the spirit of patriotism in the little minds. A drawing and colouring activity " Sit and draw for your country " was organized on the school grounds.

HAPPY PARENTS

I would like to thank the school for giving us the opportunity to share our experience.

We are happy to say that we have made the right choice, for our ward and she is an energetic kid now. She looks forward to go to school everyday. She also enjoys doing various activities assigned in class. The school ambience as well as the teachers have contributed towards raising a more active and expressive child.

Tavasmi is becoming more confident, bold and is gradually improving. Teachers help her to think beyond textbooks. I would like to thank all the teachers.

'Fantastic School' - The Teachers are very professional, caring and well organized. Good to see the efforts put in by teachers to mould the child. Our child feels safe and makes good progress at school. School is student focused, welcomes open learning and has a positive culture. School plays a significant role in shaping student's talent. The School also gives an opportunity and platform via various inter house competitions, debates, sport activities to showcase and polish the student's talent.

Prachit Untavatkar (class 9A)

After taking admission in New Era Senior Secondary School in Grade-11, my daughter's growth in studies and extra-curricular activities has raised to a great standard. The school has a clean and educational atmosphere in the campus with professional teachers. I am grateful to all the teachers and staff for supporting my daughter.

Parents of Kashvi Singh 12 C

We always heard that New Era has good Education standard amongst all CBSE schools in Vadodara. Hence, when we came to Baroda in 2008, we got our son admitted in 3rd standard and later we did the same for our daughter Priyani (12C). It has maintained high standards of education with all extracurricular activities and also fees wise it was affordable. That's how we chose this school. Also, the distance from our home was manageable.

Priyani's Father

NEW ERA SENIOR SECONDARY SCHOOL is doing excellent in all the fields especially giving a lot of exposure to children. Very nicely planned and organized Academic programme. Good efforts by all teachers. I am very grateful to all teachers, coordinator and Principal. My child is being groomed well. I feel my decision was right with regard to my child's admission in NESSS. Keep it up! I wish a great success to NESSS.

Parents of AARINI JOSHI - CLASS 2A

New Era Secondary school nurtures all the students through their academic journey which lays a strong foundation in a student's life by identifying the unique qualities in each child and providing a varied range of experiences from social to technological field. The school strives to inculcate in the students qualities of the head, heart and hand. It makes them responsible citizens who can exercise wisdom, give leadership and commitment to preserve the environment and understand humanity in all its diversity.

Parents of Ryan Baig, 5 A

We the parents of Mahak Barjatya of class 12 are grateful to New Era School for reasons beyond words. Since grade 8, we have seen the various ways in which the school keeps encouraging the students in creative and educational activities. We are happy to see the progress that our ward is making every day because of the amazing faculty of the school. Not only offline but also during the online classes, the school made tremendous efforts to keep the essence of a real school alive. In all aspects , the school has made significant progress. We are thankful to the management of the school for giving our ward the best education and engaging her in various curricular activities , which has enhanced her overall performance.

Parents of Mahak Barjatya-12C

Myself Manisha Jain, parent of Reeve (Grade-7) and Ranveer (Grade-3) can confidently say that New Era School is one of the best schools I have come across. Their unwavering commitment to academic excellence, combined with their emphasis on character development and community involvement, makes them a true asset to the education community.

Parents of Reeve and Ranveer

As we know that the school forms the most important component for overall growth and future of children; we are blessed to have New Era taking that responsibility for our kids.

Apart from excellent teaching faculties, the co curricular activities plays an equally important role in overall growth of children. This helps in developing competitive spirit and leadership qualities in the child.

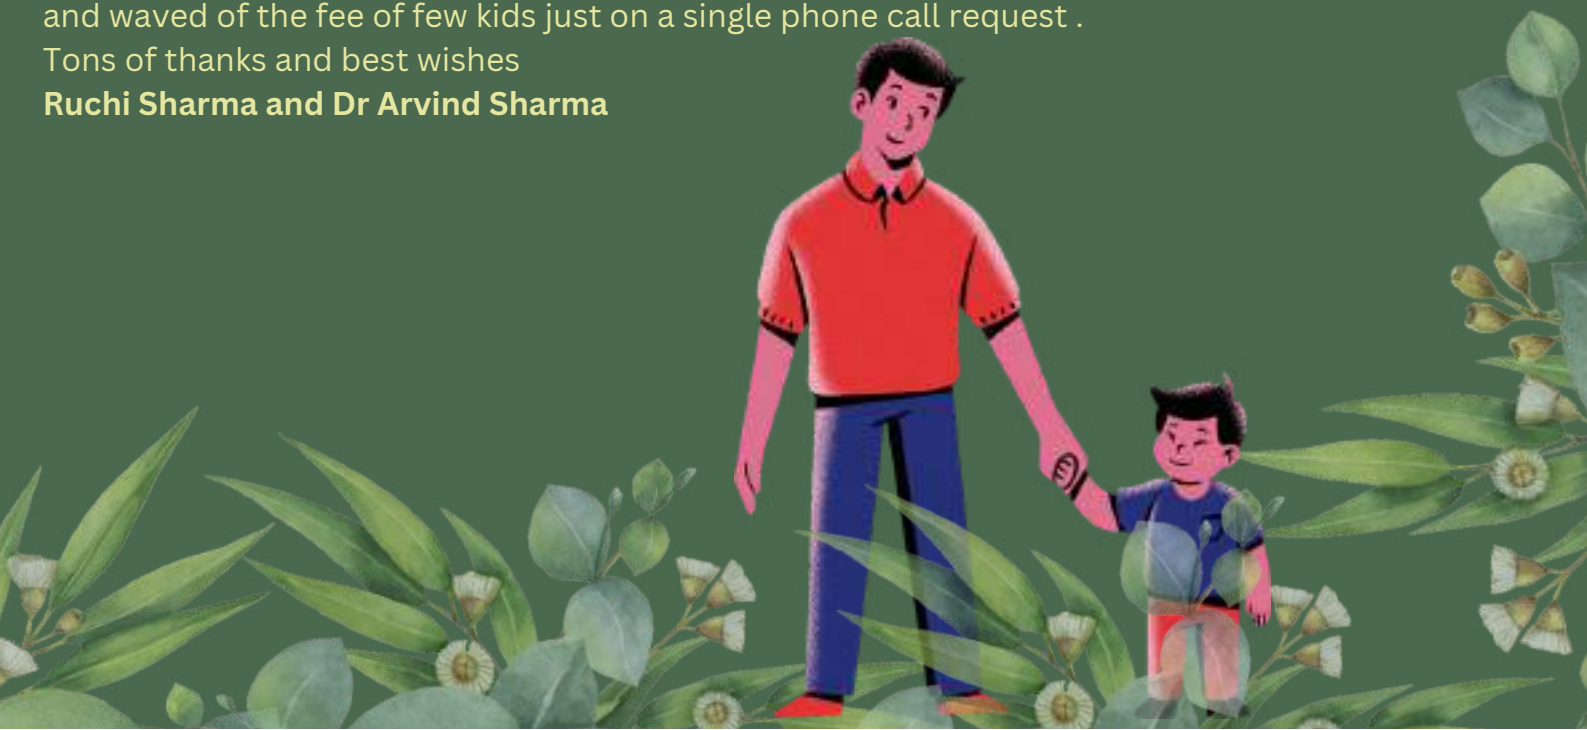

Under the guidance of the Director, Mrs Kelkar madam and the Principal, Mrs Leena madam , the school is sure to achieve new heights and create pathway for other schools to follow.

Lucky to have chosen THE best school for my kids .

The humanitarian aspect of the management was seen when the school came forward to help kids whose parents suffered heavily either financially or health wise during covid 19 pandemic and waved of the fee of few kids just on a single phone call request .

Tons of thanks and best wishes

Ruchi Sharma and Dr Arvind Sharma

New Era Senior Secondary School is an ideal educational institute where all students are treated equally. The school conducts innumerable activities throughout the year to ensure the holistic development of the students. Being a parent, it feels great to see how the management and teachers leave no stone unturned in creating an effective learning environment.

By Ms Sana Shaikh

(Parent of Zubiah Shaikh- 9A)

The teachers of New Era are really sterling and dedicated and I am really grateful to this school. The management is professional and well-organized. They really care and truly want the best for the students. The learning is beyond the books and exams too are analytical. There are several extracurricular activities that help in the overall development of students. The school encourages students to take part in international and national conferences and competitions.

By Jayesh Patel

(Parent of Diya Patel- 9A)

I'm a parent of Aanya Shah from 9th Grade. My daughter has been studying in New Era School for 11 years now and my experience with the school so far has been really great. I am impressed with the curriculum and the pedagogies, that are so different from other schools. Also, the staff has been very supportive and hardworking. It is the management of the school that has always provided every child a chance to shine. Lastly, I would like to express my gratitude and thank the school for its endless efforts.

By Purvi Shah

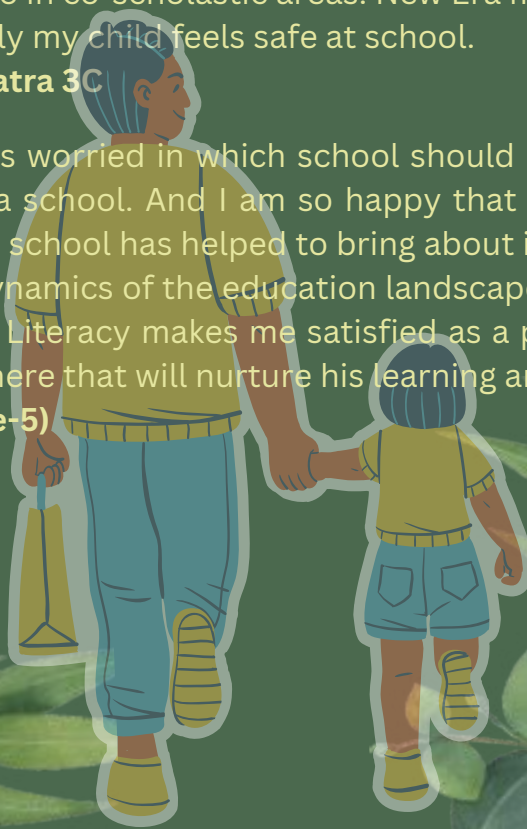

(Parent of Aanya Shah- 9B)

The teachers are dedicated, good, caring and are well organised. Their limitless patience and guidance helps my son to be more confident and capable in so many ways. Events like annual concert, sports day and science exhibition are exceptionally well organized. My son is not only progressing well in studies but also in co-scholastic areas. New Era meets my son's particular needs. Lastly and most importantly my child feels safe at school.

Parents of Krishav Singha Mahapatra 3C

As a paranoid parent I was always worried in which school should I send my ward. This is when my friend told me about New Era school. And I am so happy that I listened to her. The kind of confidence and self discipline the school has helped to bring about in my child is superlative. The school's focus on the changing dynamics of the education landscape by introducing club periods like AI, mass media and Financial Literacy makes me satisfied as a parent that my ward is in the right place with the right atmosphere that will nurture his learning and growth.
